

Assignment Day 2

Take two values through command line argument & print their sum.

```
class sum {  
    public static void main (String args[])  
    {  
        int x, y, s;  
  
        x = Integer.parseInt (args[0]);  
        y = Integer.parseInt (args[1]);  
        s = x + y;  
        System.out.println (" Sum of " + x + " + y + "  
                             " is " + s );  
    }  
}
```
